Culture is important: The best way to reach an Arabic consumer is through Arabic media. Long term residents respond best to ads in their own language. Many newer residents don't understand English well enough to respond to English advertising at all. Arabic consumers believe that companies using Arabic language media are sensitive to their shopping needs.

Radio CINA Detroit-Windsor is the only Arabic language FM station. FM expands the reach of your message to the whole family.

Radio CINA Detroit-Windsor is the most cost-effective way to reach Arabic consumers in Metro Detroit and southwestern Ontario.
